

TURBOFLO AQUA ***PUMPS***

Turboflo Aqua is a hydraulically efficient, high performance pump designed for KOI ponds that require a low speed, high powered pump.

Turboflo Aqua pumps are equipped with marine grade seals and manufactured for maximum reliability, efficiency and performance.

It has an adjustable wet end which can be configured to suit up to 5 different plumbing conditions.

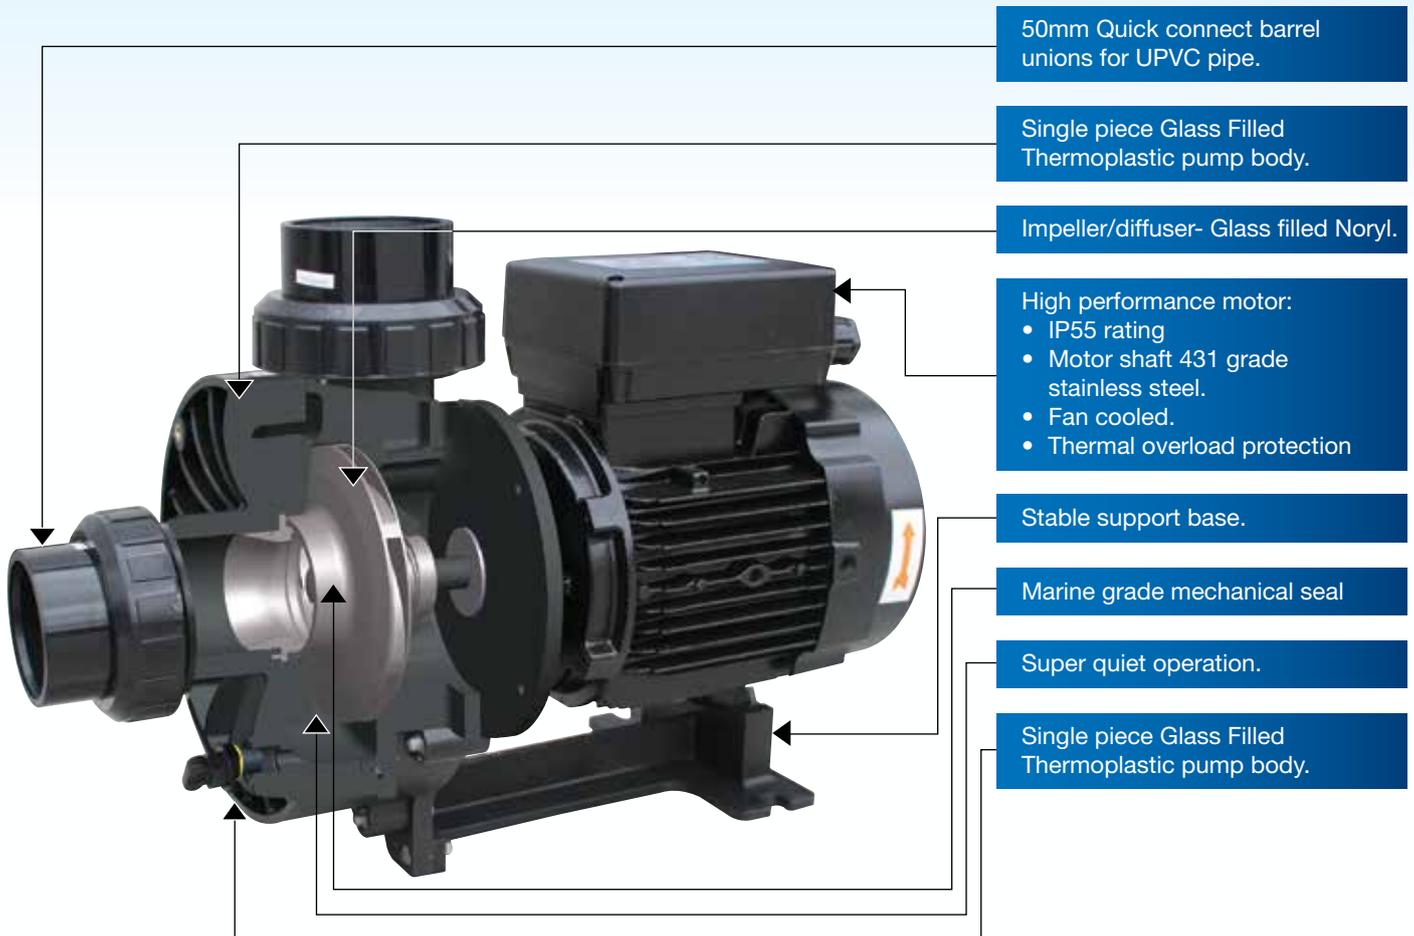

SUPER QUIET

Efficient Impeller and Diffuser Design

The design of the adjustable wet end makes the pump very quiet during operation, and the Noryl impeller provides maximum strength and durability. Turboflo Aqua's motor delivers optimum performance while still being very low on energy consumption.

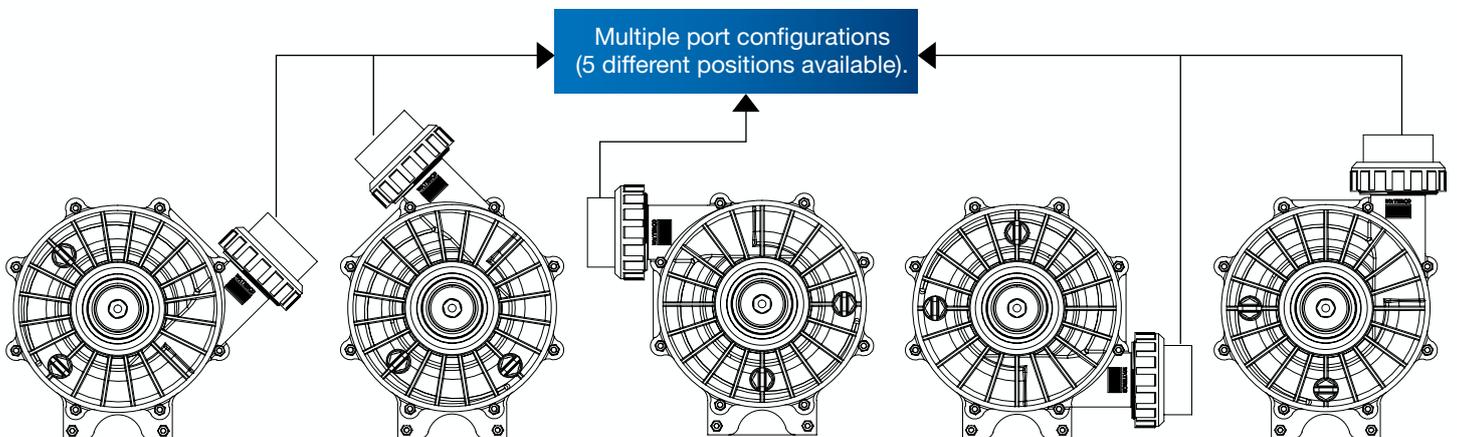

Engineered Durability

The pump body is manufactured utilising state of the art engineering plastic moulding.

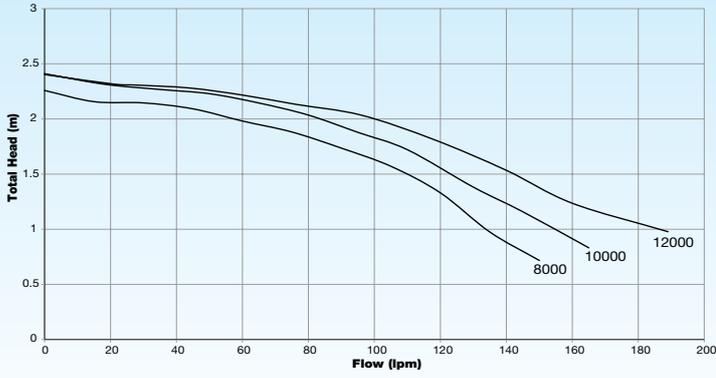

Adjustable wet end

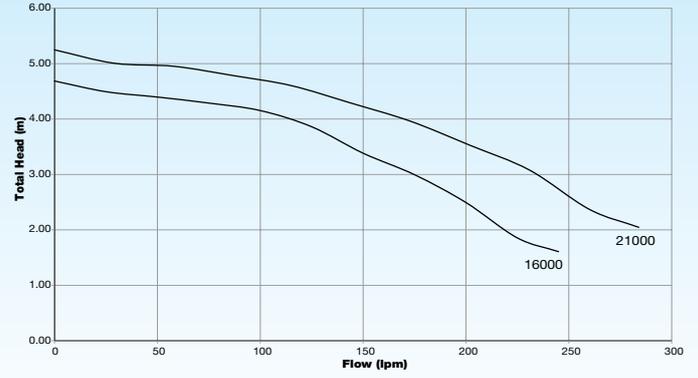

The Turboflo Aqua pump features an adjustable wet end, meaning the 50mm outlet can be placed in five different positions for easy connection to existing rigid pipe work.
