

HAYWARD[®]
COMMERCIAL AQUATICS

Saline C[®] Series

ELECTRONIC SALT
CHLORINE GENERATORS

GIVE EVERY GUEST AN UPGRADE.

Saline C[®] brings the luxury of salt-chlorinated water to any commercial pool.

Saline C Series electronic chlorine generators provide an elegant, rugged sanitization solution specifically designed to meet the high chlorine demand of commercial pools.

- » Saline C 6.0 can generate 6 lbs of chlorine per day, enough for a 60,000-gallon outdoor pool or a 90,000-gallon indoor pool*
- » Saline C 11.0 can generate 11 lbs of chlorine per day, enough for a 110,000-gallon outdoor pool or a 165,000-gallon indoor pool*
- » Compact design with a single electrolytic cell
- » Features reverse polarity self-cleaning technology
- » Compatible with chemical automation systems
- » Simple, low-cost installation versus multi-cell alternatives
- » NSF certified

WHY CHOOSE SALT CHLORINATION?

- » Softer, silkier water your guests will love
- » Eliminate the need to transport, handle and store hazardous chemical chlorine
- » Reduce chloramines—and the odors and corrosion that come with them
- » Cut chlorine costs by 40% to 60%
- » Lower cost of ownership over time

*Please check local codes. The sizing provided is based on: 1 lb of chlorine production per 10,000 gallons of water volume (outdoor pools); 1/2 lb of chlorine production per 10,000 gallons of water volume (indoor pools)

SALINE C 6.0 AND 11.0 VESSEL FEATURES

Multiple inlet/outlet configurations with 4" union connections
(2" union connections on Saline C 6.0)

Engineered thermoplastic housing provides industrial-grade durability

Clear vessel for easy visual inspection

Convenient drain plug

SIMPLE ONE-MINUTE ELECTRODE CLEANING OR REPLACEMENT

STEP 1:
Twist and remove lid

STEP 2:
Lift lid and remove electrode from inside vessel

STEP 3:
Replace with clean or new lid/electrode assembly

Single-button output control is adjustable from 5% to 100% *(Saline C 6.0 model only)*

Dual Control Mode for precise chlorine production management *(Saline C 11.0 model only)*

Clear LED read-out with low salt warning indicator

Male pigtail for compatibility with pH and ORP chemical controllers

110V single plug-in energy-efficient switch-mode power supply

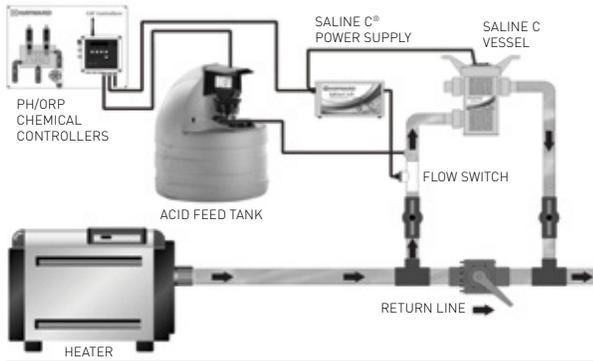

TRY IT WITH

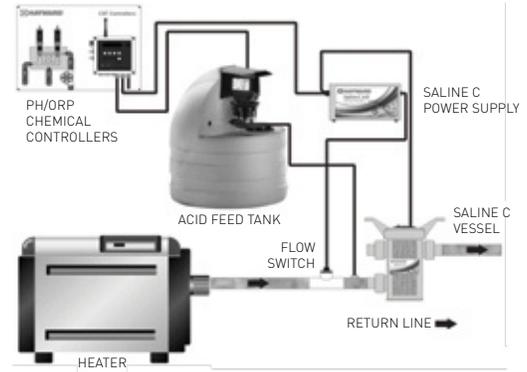

Plug your Saline C Series salt chlorine generator into one of our **CAT Controllers**® to transform it into a totally automated water quality management solution. Via the innovative **PoolComm**® partner app, you can enjoy the convenience of remote monitoring and audit tracking of multiple pools from any iPhone®, Android™ or other web-enabled mobile device.

Saline C™ 6.0

COMMERCIAL SALT
CHLORINE GENERATOR

NSF

Produces up to
6 pounds
of chlorine per day

- Commercial sizing 60Kgal outdoor, 90Kgal indoor
- Compact design, single cell and power supply, easy install
- Industrial-grade, clear vessel, easy inspection
- Reverse polarity self-cleaning technology
- Plug N' Play Chemical Automation
- Simple 1 minute electrode removal
- NSF certified

Saline C™ 6.0

COMMERCIAL SALT
CHLORINE GENERATOR

Natural, enjoyable
swimming experience with an
eco-friendly, low cost chlorine solution

- Eliminate transportation, handling and storage of hazardous chlorine
- Reduce chloramines and associated odors/corrosion
- Energy efficient power supply draws just 4 to 6 amps
- 40% to 60% lower cost per lb of chlorine vs. sodium and calcium hypochlorite
- Game-changing initial investment and cost of ownership
- Simple, low cost installation vs. multiple cell alternatives
